

Urban Forest Strategy

Online Open House

District of Saanich

May 16, 2024

Diamond Head Consulting: Amelia Needoba

Presentation Overview

- Project Context
- What we've Learned
 - State of the Urban Forest
 - Engagement
- Strategic Framework
 - Vision, Goals, and Targets
 - Strategies and Actions
- Questions and Feedback

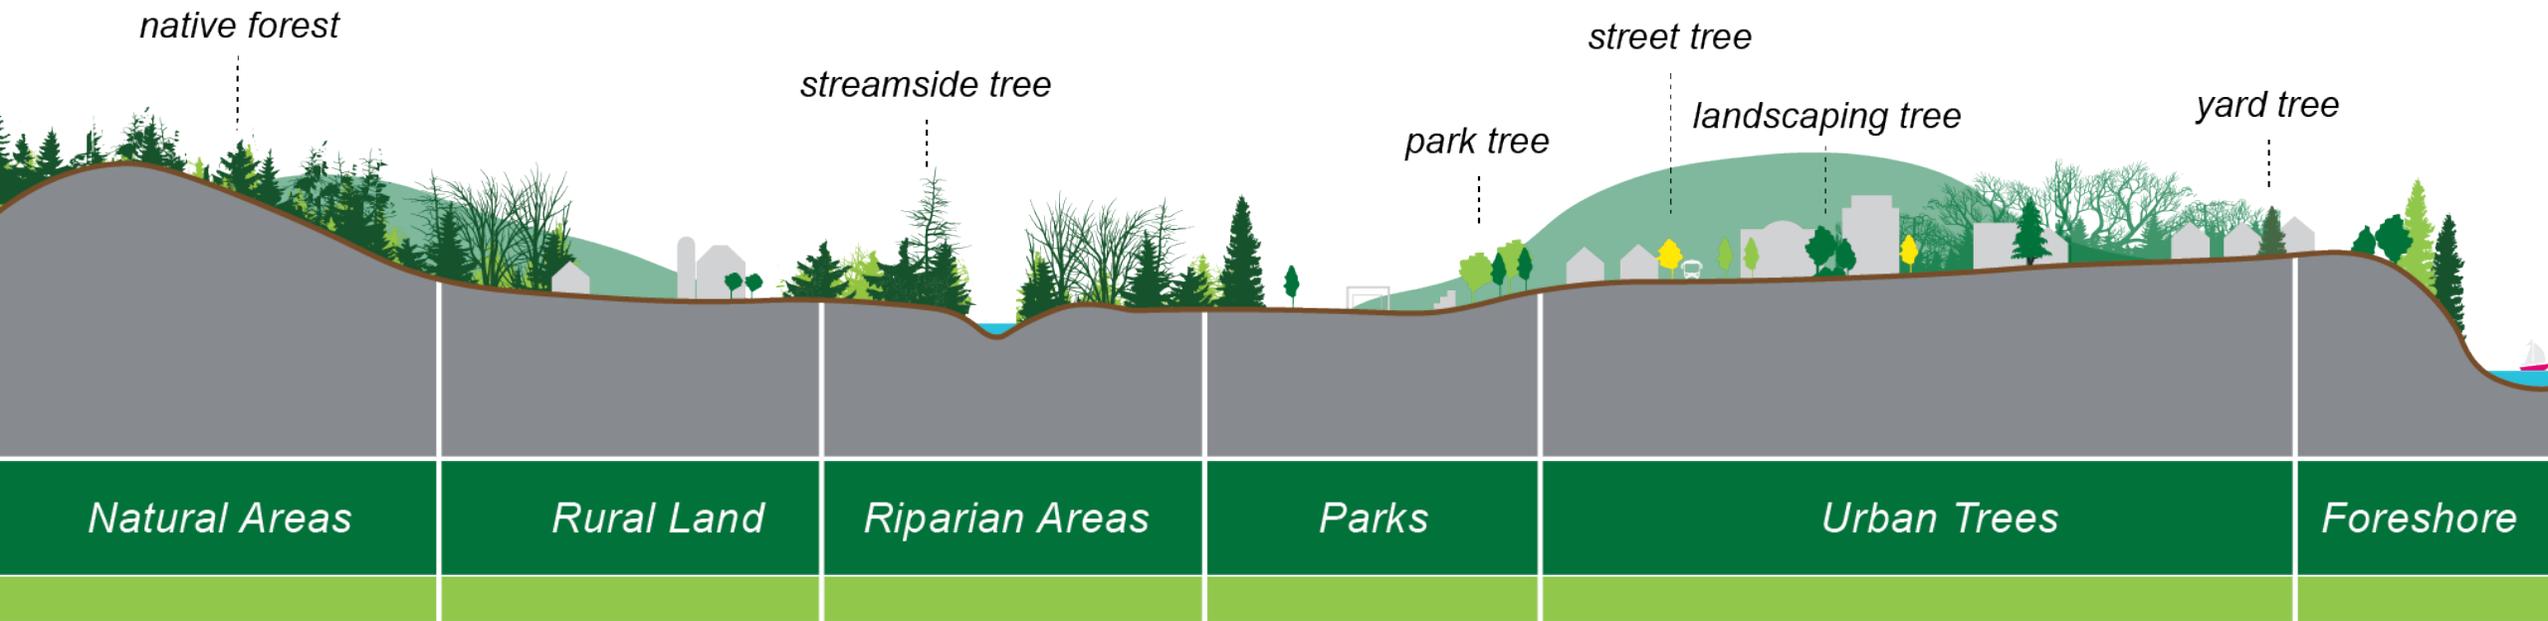

Project Context

What is an Urban Forest?

Components of Saanich's urban forest

Saanich's Urban Forest Strategy will...

- ✓ Renew the Urban Forest Strategy with guidance for today's challenges
- ✓ Align with and support other District policies and priorities
- ✓ Engage the public and key stakeholders
- ✓ Establish the baseline state of the urban forest
- ✓ Provide a long-term vision for the urban forest
- ✓ Provide a 10-year implementation road-map

Project scope

Project scope

	Task	Key deliverables
Complete	Background Research & Review	<ul style="list-style-type: none"> ✓ Peer City Review ✓ Urban Forest Program Budgets and Service Levels ✓ Best Management Practices
	Inventory, Mapping, & Analysis	<ul style="list-style-type: none"> ✓ Canopy summaries and analysis ✓ Field work for data collection ✓ State of the Urban Forest Report ✓ Tree Equity Score
	Engaging the community and stakeholders	<ul style="list-style-type: none"> ✓ Online mapping tool ✓ Public survey ✓ Open houses/workshops (public and staff) ✓ Council/Committee presentations
To come	Updating the Urban Forest Strategy	<ul style="list-style-type: none"> ✓ Recommendations + Implementation Plan • Interim UFS document (Draft) • Finalized UFS document

Work completed to date

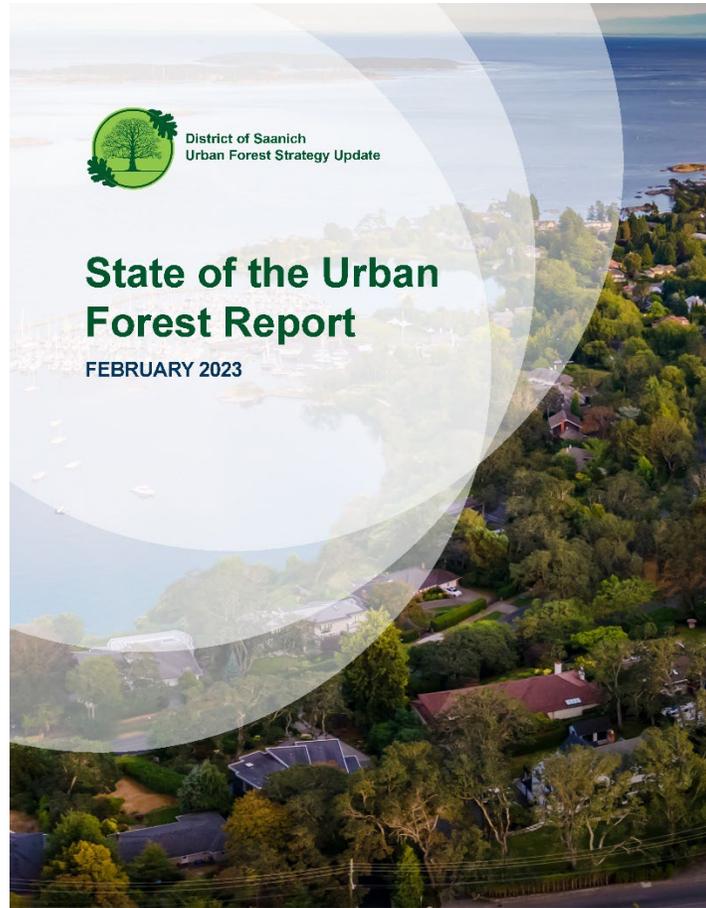

Table of Contents

- Land Acknowledgement
- Executive Summary
- Glossary
- 1 Introduction**.....
 - 1.1 What is the urban forest and who manages it?
 - 1.2 The urban forest and Reconciliation
 - 1.3 Why is the urban forest important?
- 2 Saanich's Urban Forest Policies**.....
 - 2.1 Guiding Policies
 - 2.2 Implementing Tools
 - 2.3 Supporting Bylaws, Policies and Plans.....
- 3 Saanich's Urban Forest Program**.....
 - 3.1 Tree Planting.....
 - 3.2 Tree Care.....
 - 3.3 Tree Protection
 - 3.4 Service Requests for Public Trees.....
 - 3.5 Maintaining Natural Areas and Trails.....
 - 3.6 Partnering with the Community.....
 - 3.7 Current Budget and Resources
 - 3.8 Peer City Comparison.....
- 4 State of Saanich's Urban Forest**.....
 - 4.1 District-wide canopy cover
 - 4.2 The urban forest in each local area
 - 4.3 Public trees
 - 4.4 Private trees.....
 - 4.5 Natural forests
 - 4.6 Tree equity factors
 - 4.7 Significant trees
- 5 Saanich's Progress: Implementing the Urban Forest**.....
- 6 The 2023 Urban Forest Report Card**.....

- Appendix 1: Criteria and Indicators Table.....

Progress on the 2010 Urban Forest Strategy

The 2010 Urban Forest Strategy resulted in positive changes to regulations and practices that increased tree protection in the municipality and grew public awareness. With the renewal of the Urban Forest Strategy, now is an appropriate time to review the actions and assess progress on implementation.

The 2010 Urban Forest Strategy organized its actions within seven Strategies. The seven strategies are to:

- » *Grow the Urban Forest Canopy*
- » *Amend the Tree Preservation Bylaw*
- » *Develop Urban Forest Guidelines*
- » *Integrate the UFS with other District and Regional Initiatives*
- » *Inventory the Urban Forest*
- » *Develop an Urban Forest Operations Program*
- » *Engage the Community*

14 actions are listed within the strategies. In the table on the following pages, actions are listed as complete, in progress, or not started.

In total, three actions are complete, ten actions are in progress, and one action is not started.

Action Update: 2010 Urban Forest Strategy Implementation

- 3 Complete
- 10 In Progress
- 1 Not Started

A photograph of a forest with a large tree trunk in the foreground. The text "What we've Learned" is overlaid on the image in white font. The forest is filled with tall, thin trees, and sunlight filters through the canopy, creating a dappled light effect on the ground. The ground is covered in brown leaves and twigs. A fallen log lies on the ground to the right of the large tree trunk.

What we've Learned

District-wide canopy cover

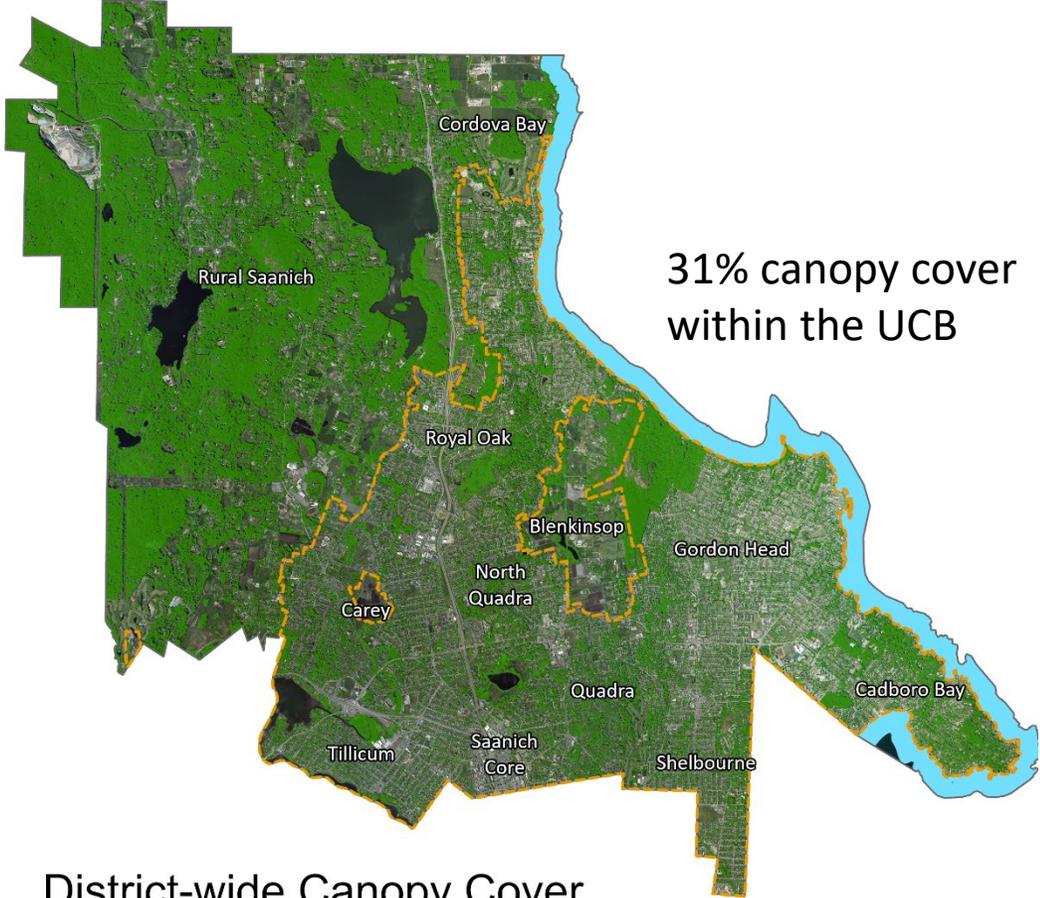

Canopy cover
(2019): **43%**

Tree Canopy

Urban Containment
Boundary

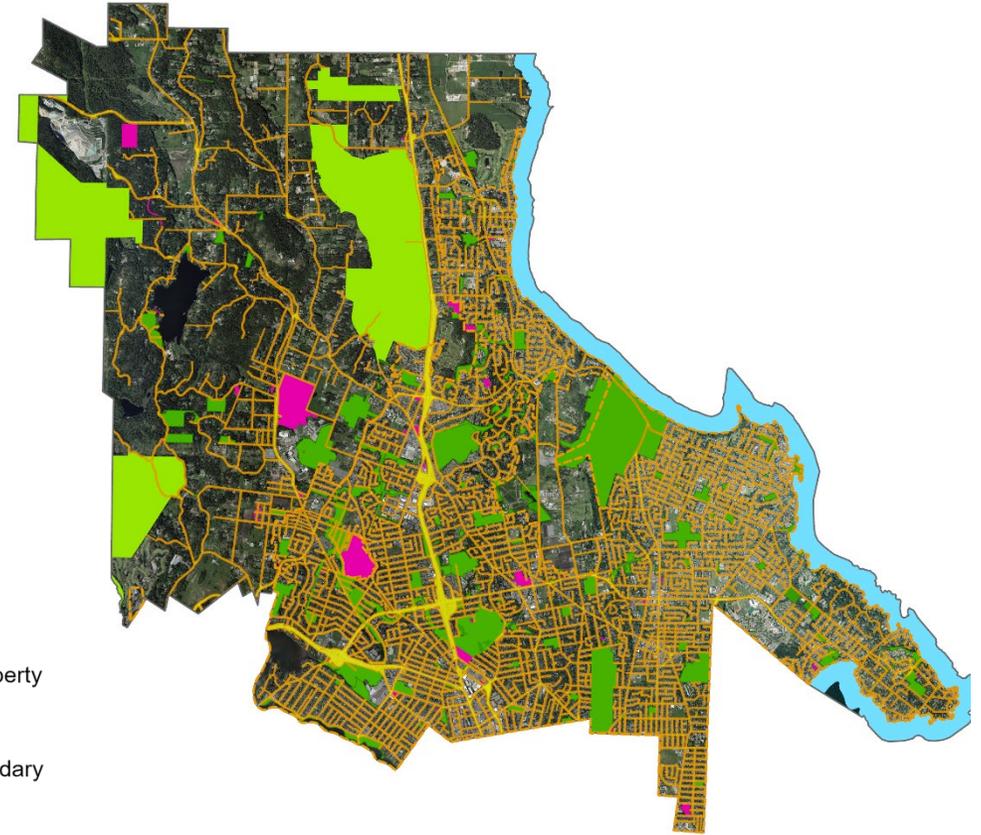

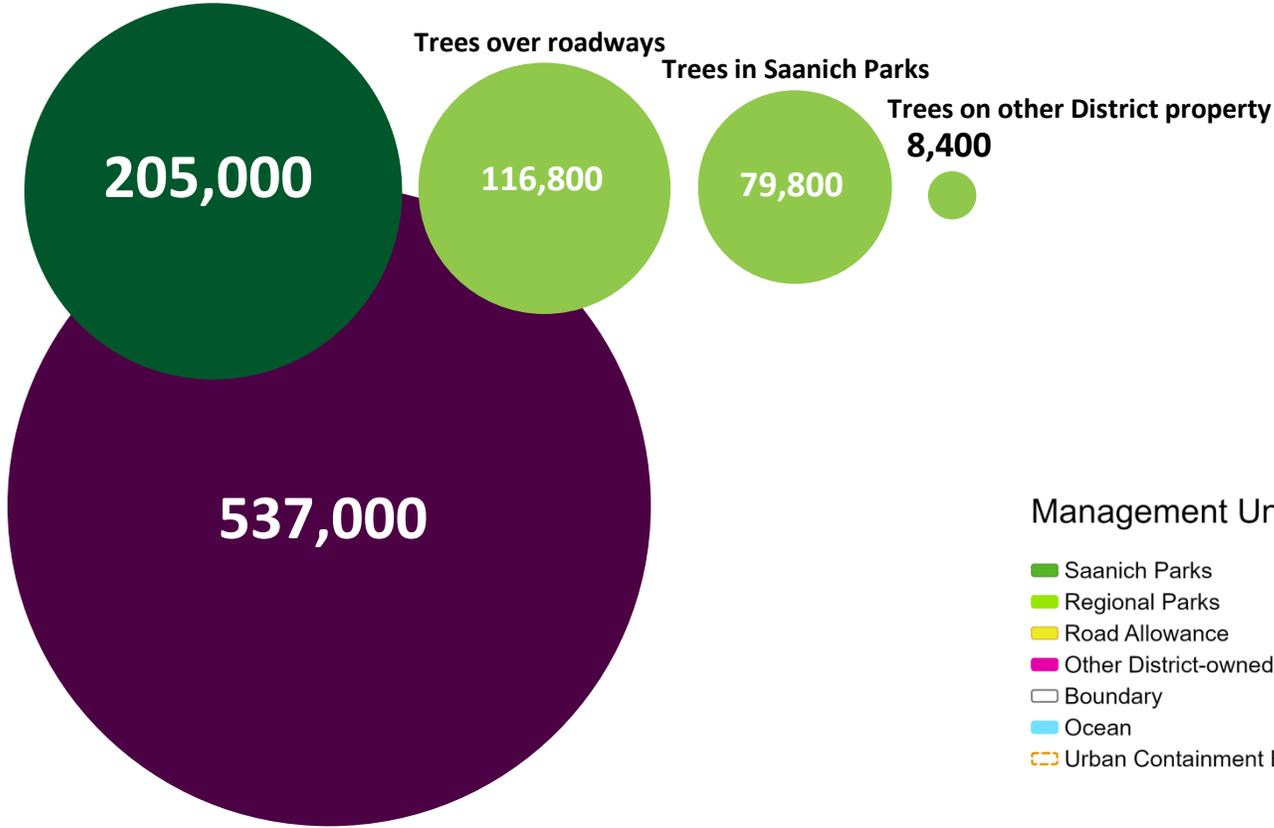

District-wide Canopy Cover

Where trees are located in Saanich

Trees on Saanich-owned property, including:

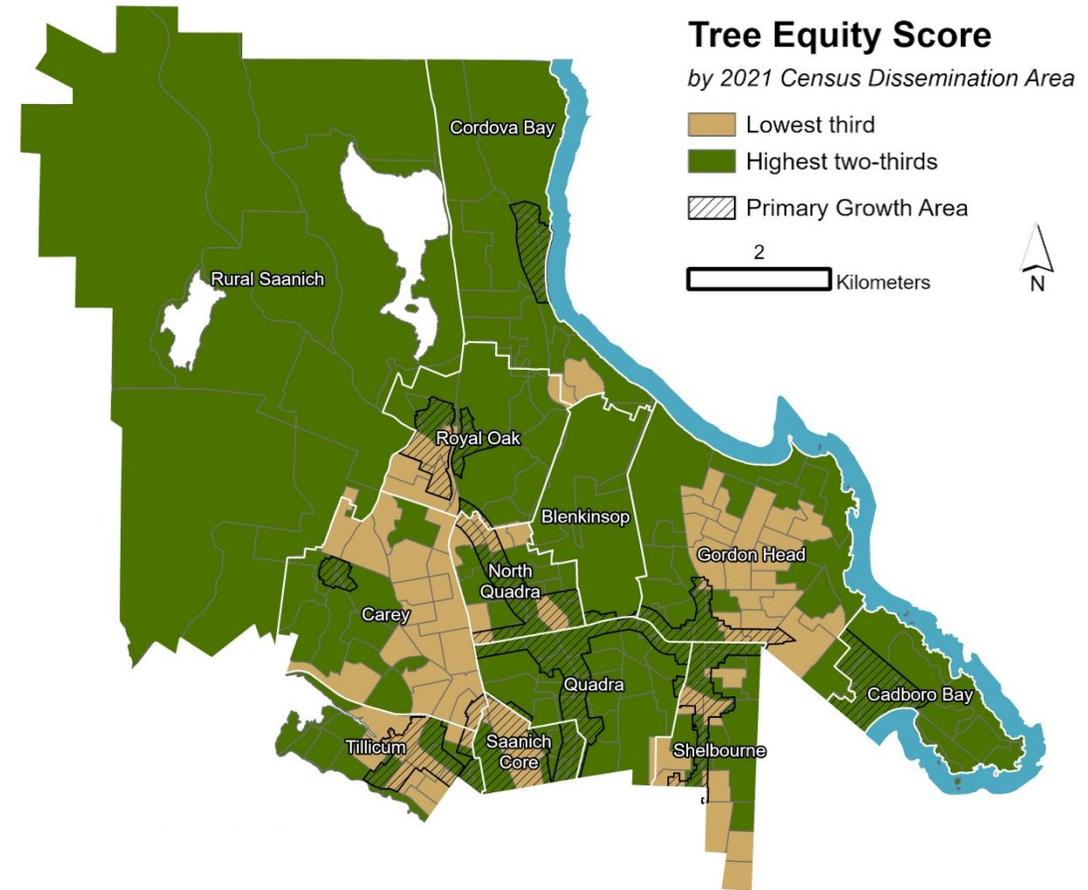

Trees on property not owned by Saanich, including Regional Parks and private land.

State of the Urban Forest

Tree equity score

- Equity indicators include:
 - Climate and temperature
 - Income
 - Age
 - Race and ethnicity
 - Employment status

A lower tree equity score

=

A greater priority for increasing tree canopy

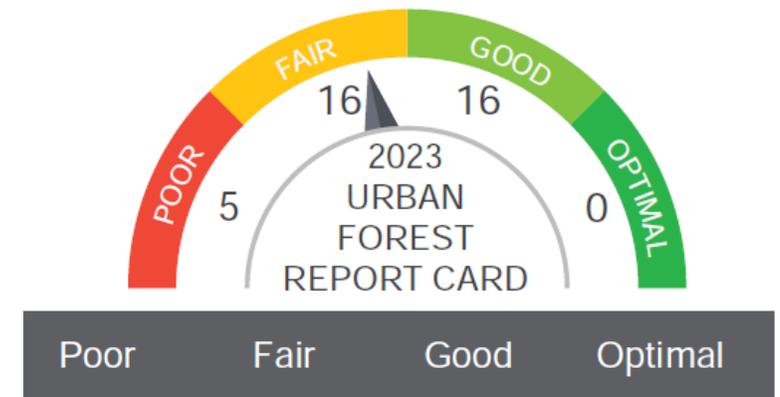

Progress made since 2010

- Saanich has made progress since the 2010 Urban Forest Strategy, including:
 - Creation of the Urban Forest Reserve fund
 - Adopting the Tree Protection Bylaw
 - Investing in stewardship programs
- Challenges for implementation include:
 - Limited resources
 - Planting site availability
 - Conflicting or competing priorities for space
 - Climate risk

Urban Forest Report Card

- 2022 program grade (in colour)
- Work already in progress is expected to improve rating
- Assessment based on partial or interim data

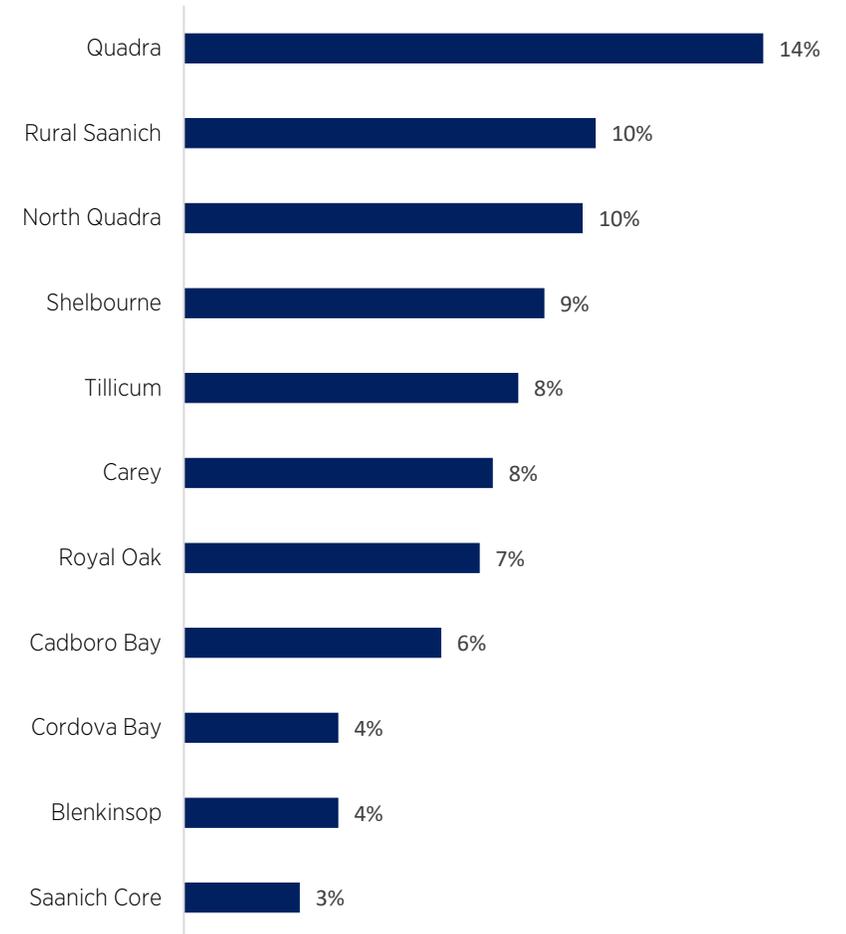

Phase 1 engagement: summary

Who we heard from:

- 380 survey respondents
- 312 mapping tool submissions
- 100 attendees at the in-person open house
- 49 attendees at the virtual open house
- 15 organizations at the stakeholder workshop

Phase 1 engagement: summary

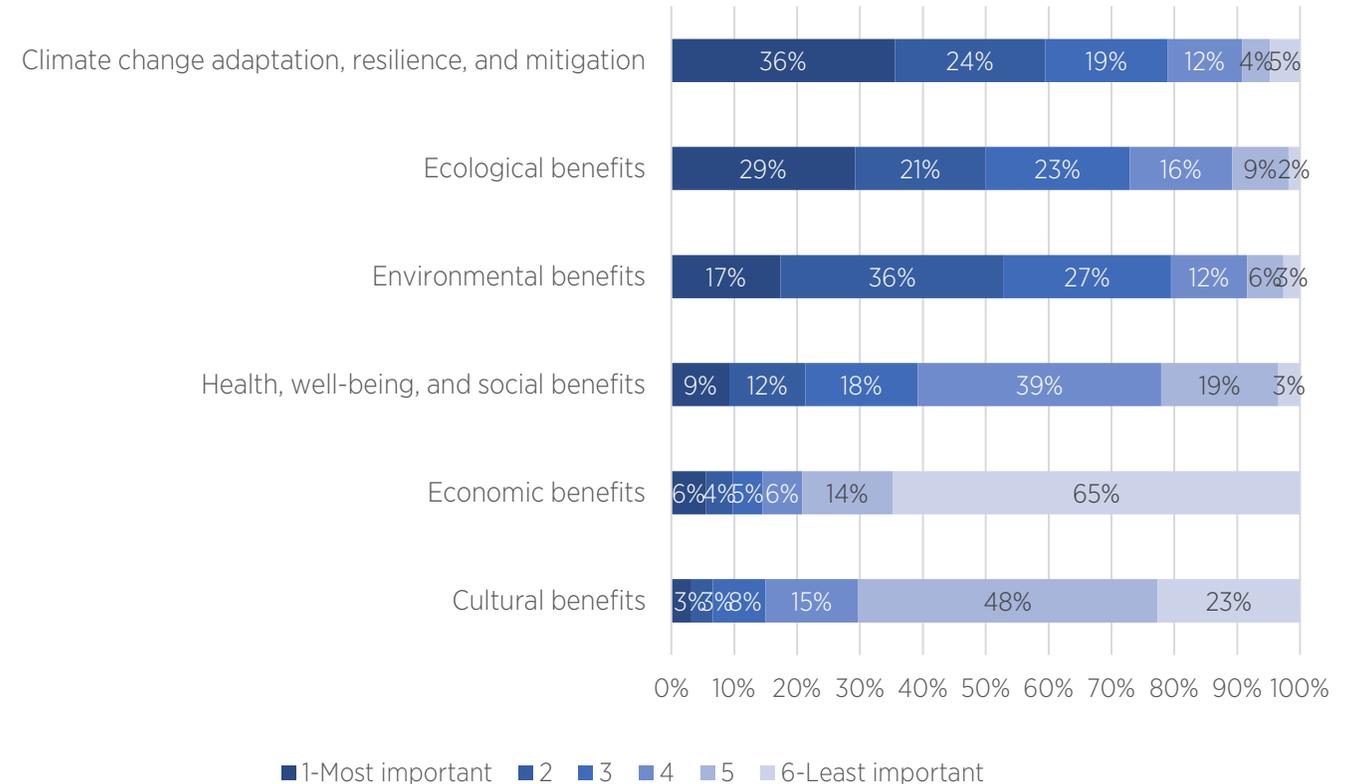

Vision

- Native
- Diverse
- Well-protected
- Mature

Priorities

- Increased canopy cover
- Restore forest ecosystems in parks
- Provide incentives and public education
- Improve development standards to create better planting spaces
- More retention, better protection and more replacements, ideally on-site

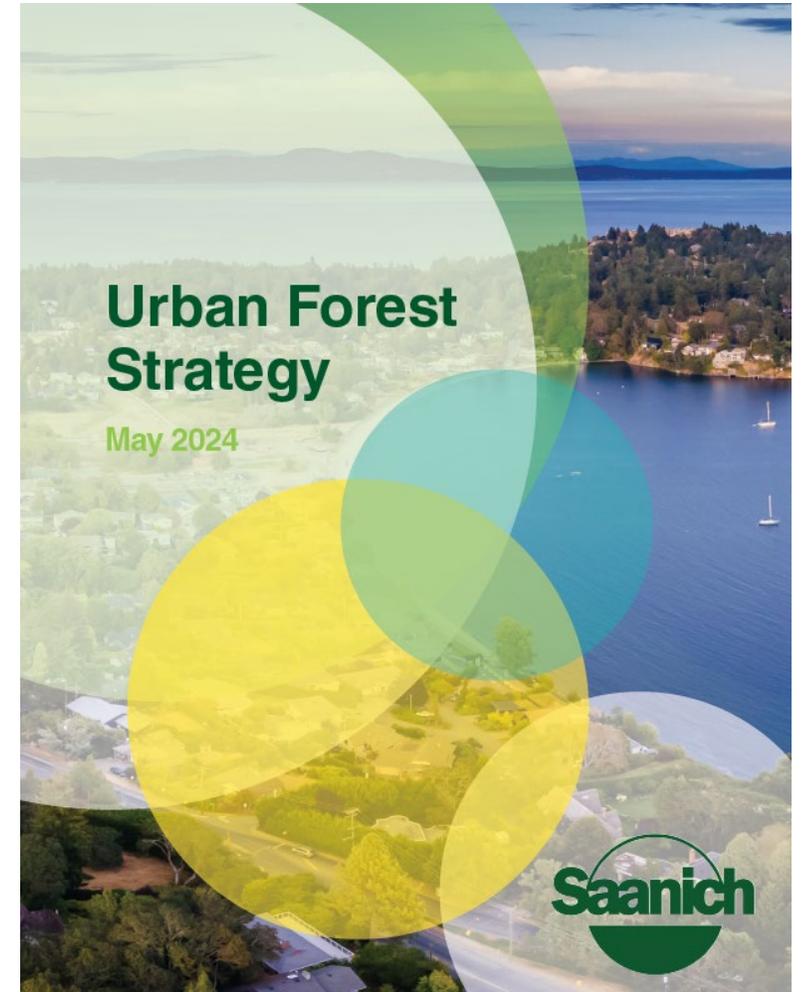

An aerial photograph of a town nestled in a valley. The town is surrounded by dense green forests. In the background, there are rolling hills and mountains under a cloudy sky. A body of water is visible on the right side of the image. The text "Strategic Framework" is overlaid in white on a dark horizontal band across the middle of the image.

Strategic Framework

The Strategy

1. Introduction
2. Background and context
3. What we have: status and trends
4. What we do: Saanich's urban forest program
5. Drivers of change
6. Vision for the future
7. The action plan

Strategic framework

Canopy
Target

What we want

How we get it

An aerial photograph of a coastal town, likely Saanich, British Columbia. The foreground shows a residential area with houses and a road. The middle ground is dominated by a large, dark blue body of water, possibly a bay or inlet, with many sailboats. In the background, there are rolling hills and mountains under a sky with soft, late-afternoon light. The text 'Proposed Vision' is overlaid in the center in a large, white, sans-serif font.

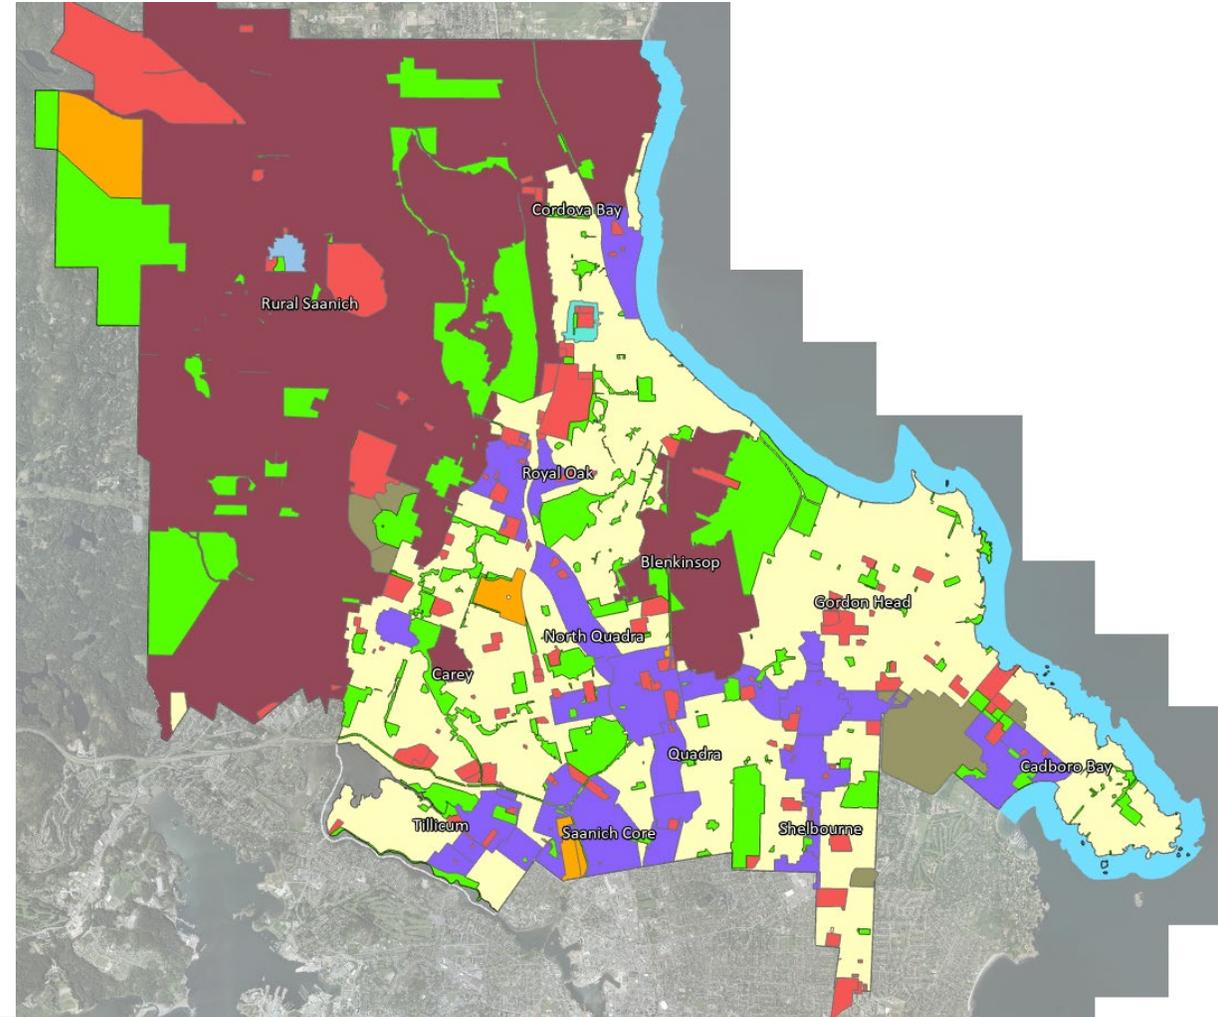

Proposed Vision

The urban forest in Saanich is a thriving, interconnected system of trees and forests across the municipality, nurtured by the entire community to support the health and well-being of current and future generations.

Setting a canopy target

Saanich OCP Land Use

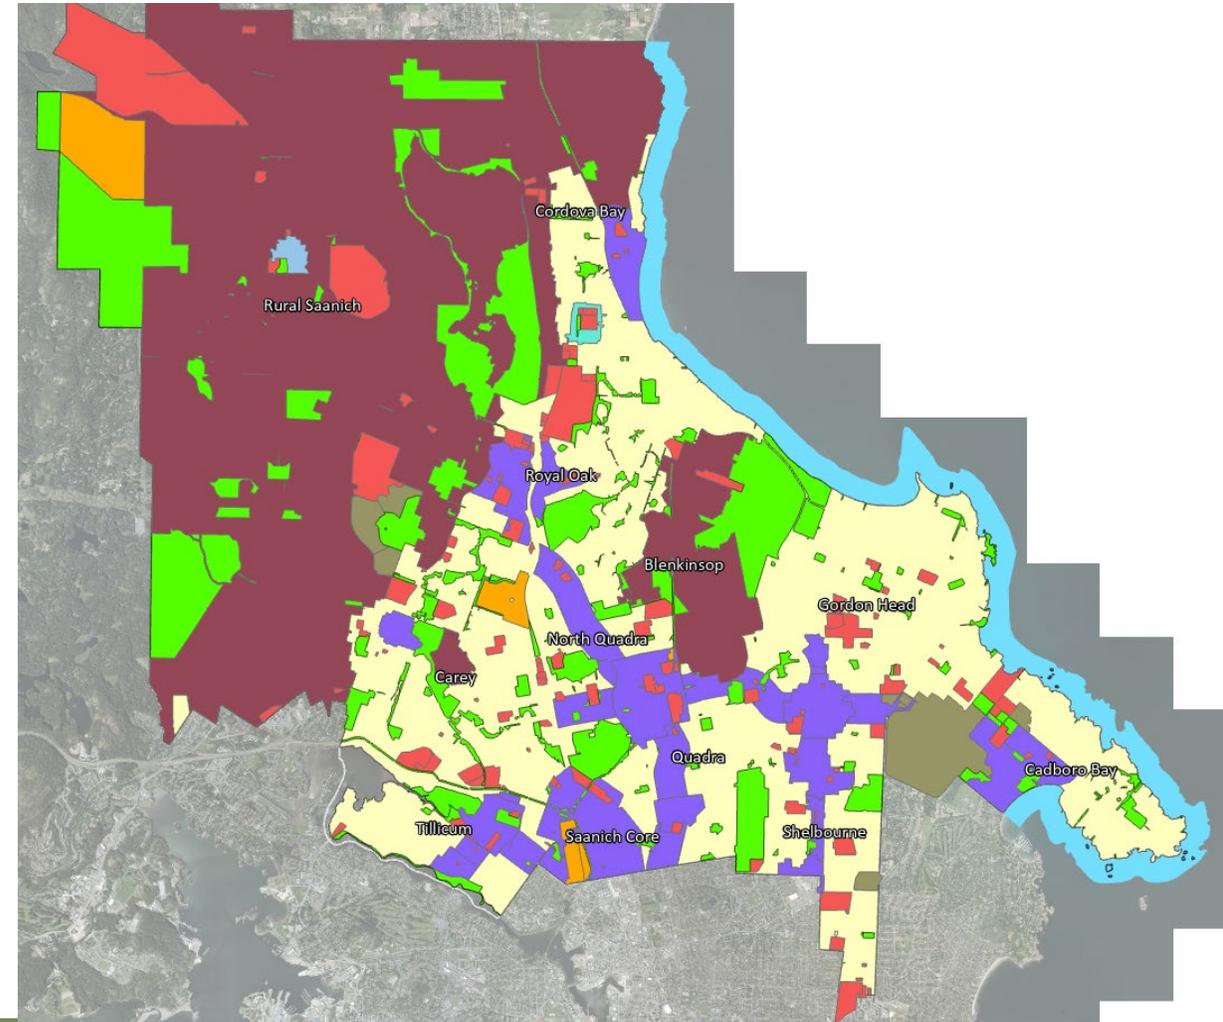

Setting a canopy target

Saanich OCP Land Use

Future Land Use	Land Area (incl. ROW)	Canopy (2019)
Industrial Lands	177	31%
Institutional	687	47%
Knowledge Centre	158	30%
Neighbourhood	2983	31%
Neighbourhood Hub	16	28%
Park	1468	70%
Primary Growth Area	934	24%
Rural Areas	4225	46%
Rural Village	18	48%
District-wide Average	10665	43%

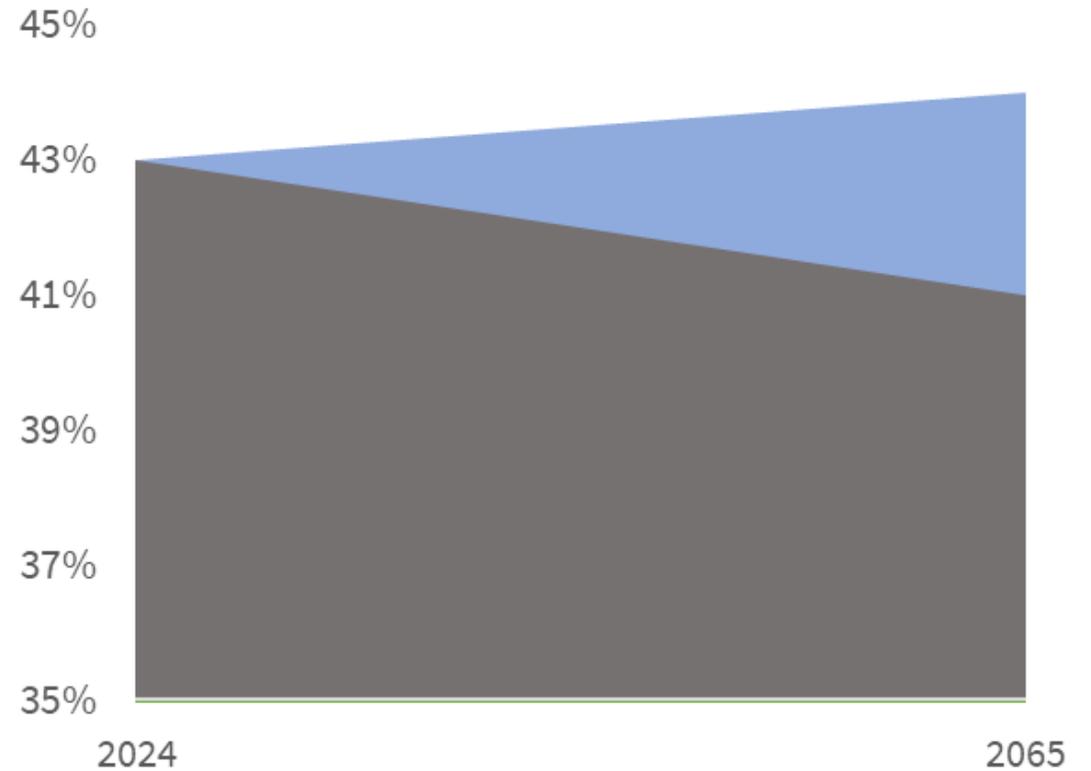

Target proposed

Assumes

- 160 ha of canopy loss
- 53,000 trees planted
- Understory restoration planting
- Dead tree replacement

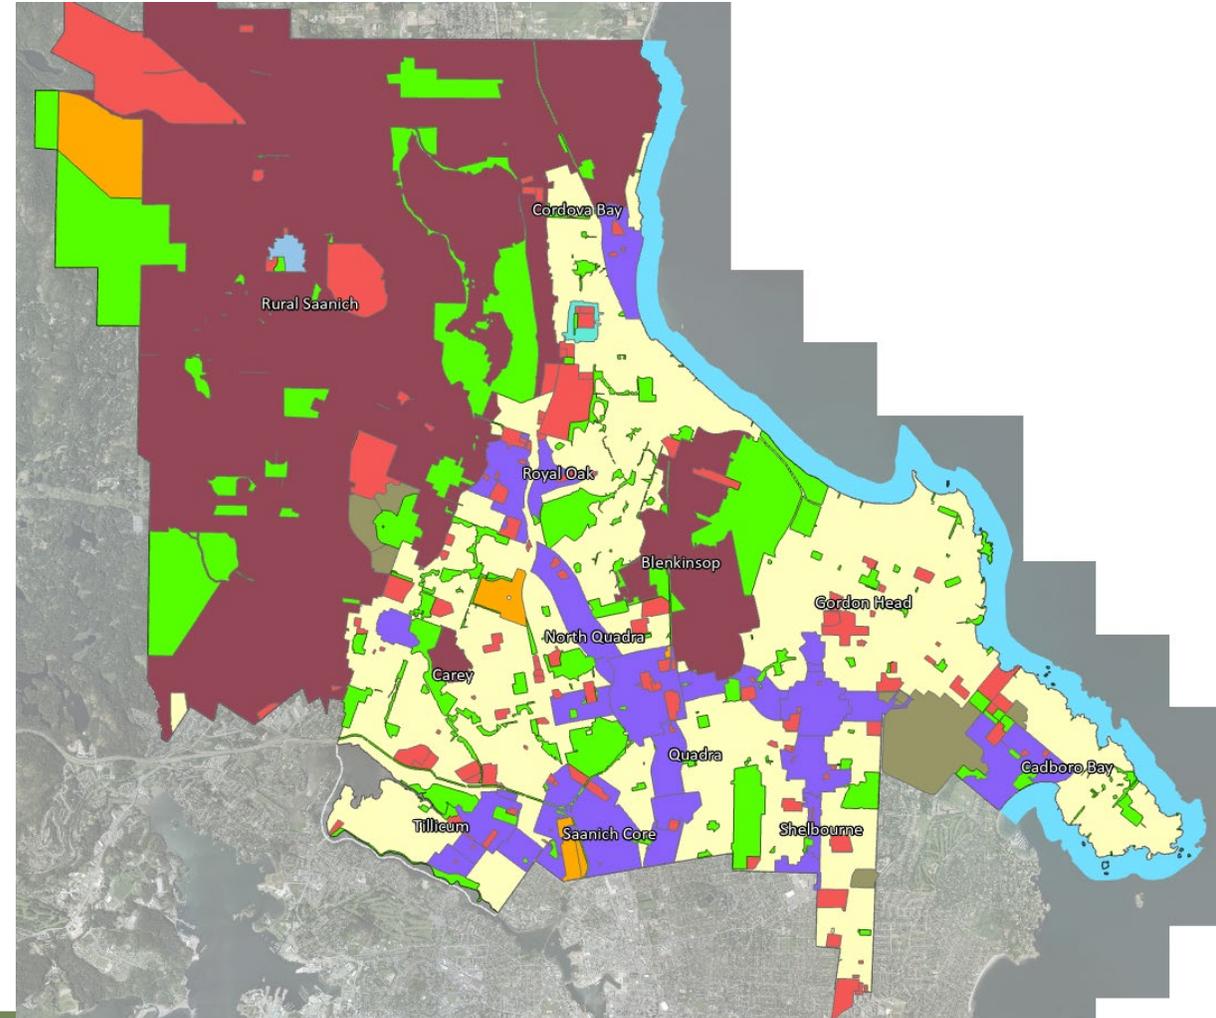

Targets anticipated by land use

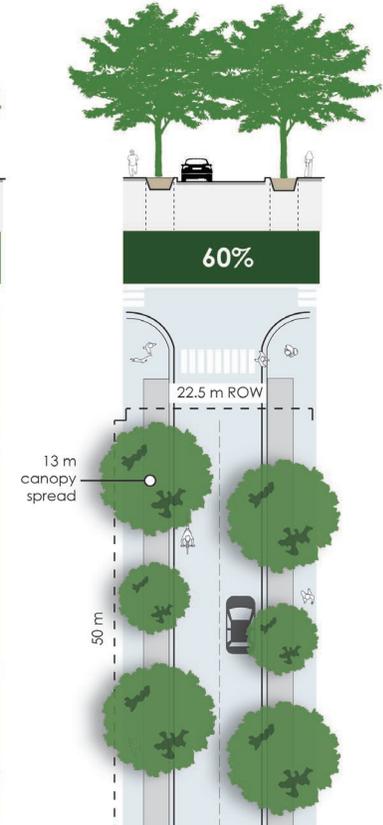

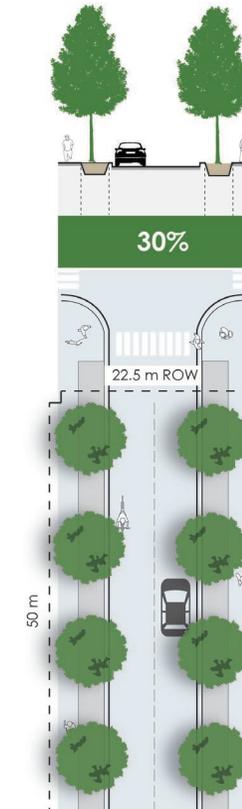

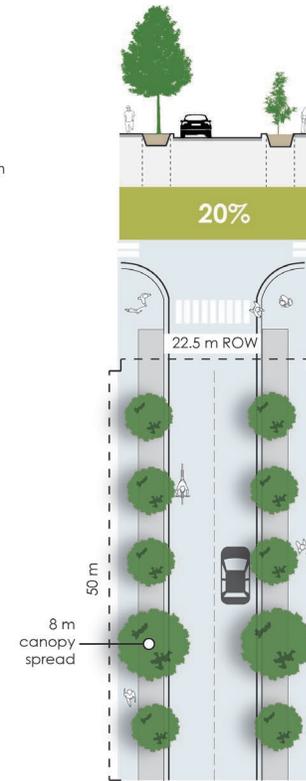

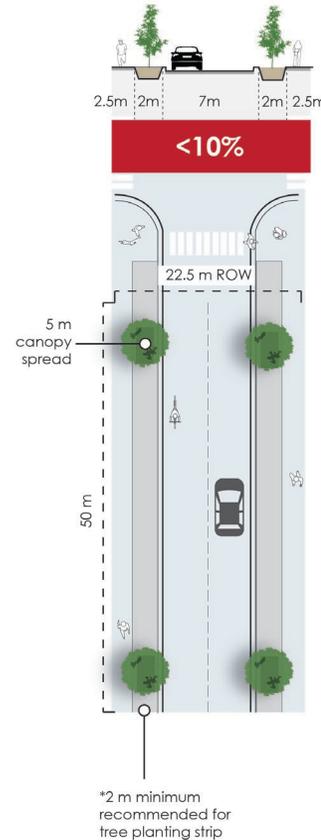

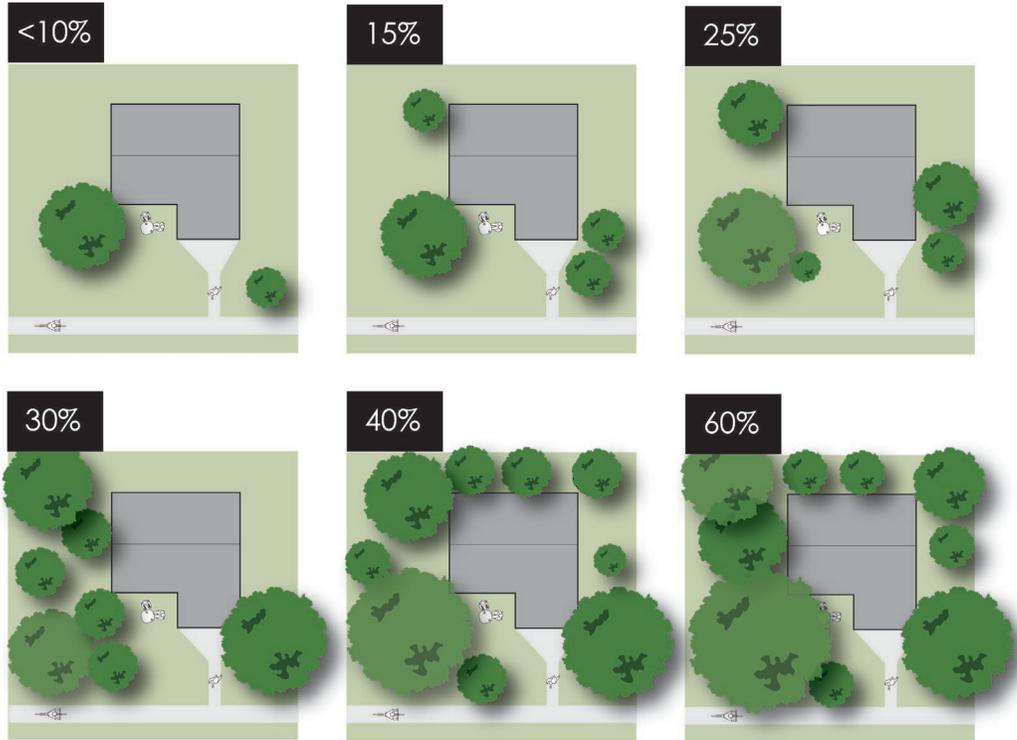

Land Use	Land Area (ha)	Canopy Cover (2019)	Target Canopy Cover (2064)
Industrial Lands	177	31%	31% ↔
Institutional	687	47%	47% ↔
Knowledge Centre	158	30%	30% ↔
Neighbourhood	2,983	31%	35% ↑
Neighbourhood Hub	16	28%	30% ↑
Park	1,468	70%	72% ↑
Primary Growth Area	934	24%	20% ↓
Rural Areas	4,225	46%	46% ↔
Rural Village	18	48%	48% ↔

What do canopy targets look like?

Where Planting will Happen

Achieving 44% canopy cover by 2064

*continued native forest restoration
and underplanting
50,000 trees and shrubs*

*planting 6,000 new
park trees*

*planting 20,000 new
street trees*

*planting 28,000 new landscape
and yard trees*

Natural Areas

Rural Land

Riparian Areas

Parks

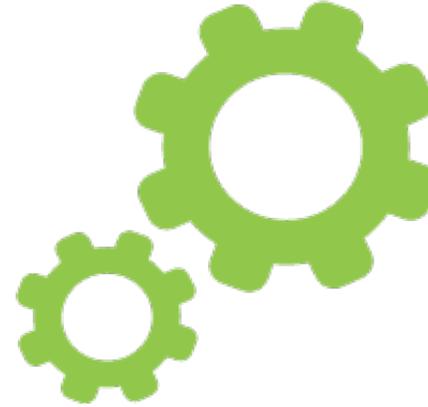

Urban Trees

Foreshore

Draft Goals

1. **Protect, connect,** and **enhance** the urban forest

2. **Manage** the urban forest in alignment with best practices

3. **Foster** a culture of **community care** for the urban forest

4. **Monitor** performance and **adapt** strategies

Goal 1: Protect, Connect, and Enhance

- **Strategy 1.1.** Improve policy, regulations, processes and standards for integrating trees and forests into the built environment.
- **Strategy 1.2.** Expand the urban forest in areas of low tree canopy cover and higher social need.
- **Strategy 1.3.** Improve the quality and suitability of trees being planted for the site and climate requirements in urban locations.
- **Strategy 1.4.** Connect and enhance natural forests.

Goal 2: Manage to Support Trees

- **Strategy 2.1.** Transition to more proactive urban forest maintenance.
- **Strategy 2.2.** Incorporate urban forest assets into the natural asset management plan.

Goal 3: Foster Community Care

- **Strategy 3.1.** Build community knowledge of and participation in urban forest management.
- **Strategy 3.2.** Continue to build relationships with W̱SÁNEĆ, Songhees, and Esquimalt First Nations Governments and Indigenous Peoples through urban forest management.

Goal 4: Monitor and Adapt

- **Strategy 4.1.** Seek to fill knowledge gaps that influence confidence in urban forest management.
- **Strategy 4.2.** Monitor change, report, and adapt management to new information.
- **Strategy 4.3.** Incorporate current science into decision-making.
