

## **GREEN SHORES® TRAINING LEVEL 1**

**Wednesday, Sept. 25, 2024, 9:00 am-4:00 pm,  
Saanich, BC (venue provided upon registration).**

**Join us for this full-day training to learn how Green Shores nature-based solutions can improve shoreline stability, habitat, and biodiversity while increasing community resilience to the effects of climate change.**

Green Shores Level 1 training introduces participants to the Green Shores program, including its rationale, benefits, and application. The workshop covers shoreline ecosystem principles and management practices, with emphasis on the purpose and application of the Green Shores rating systems.

The content is of interest to elected officials, landowners, municipal and First Nations staff, conservation organizations, real estate agents, and others who have a general interest in shoreline ecosystem protection.
